

Addendum #1

1. Will you divulge the name of the firm who developed the conceptual site plan / theme for CHA, and approx. when it was completed?

A: The firm that initially developed the conceptual site plan / theme was QA&M. It was created in 2017.

2. Submission requirement #4 on pg. 4 includes experience with rehab of historic buildings. Are the structures on the state or national historic registers?

A: There are no historic structures on the property. This request is being made as NWNH has other Projects in its pipeline that are historic in nature and NWNH is interested in seeing if the proposing firm has experience with such properties / structures.

3. Regarding submission format, would it be acceptable for us to combine responses to some sections listed on pg. 3-4 to avoid repetition (for example, combine #1 with #4; combine #6 with #7)?

A: It is acceptable to combine responses if the request of each section is satisfied.
